Startup spirit, Fortune 500 expertise

A journey that began with engineering a single innovative idea, nurtured in the fast-paced realm of startups, and eventually led us to the doors of Fortune 500 companies. From building startups from scratch to seamlessly integrating with global giants, we've weathered every storm and conquered every challenge.

Our secret? A relentless pursuit of solutions, regardless of the problem. Whether it's seizing the first mover advantage or streamlining processes for faster time to market - we've mastered it all.

We transform innovative ideas into fully functional prototypes and end products, And when challenges arise, our team is there 24/7, ensuring seamless solutions for high-traffic days.

We don't just develop solutions; we create end-to-end marvels without disrupting your core team. So, what's the underlying problem you're trying to solve? Let's brainstorm together because we've been there, done that, and we have the answers to each and every challenge you come across.

Your Co-Pilot For Enterprise Data

CHATWARDS
YOUR DATA TALKS!

Transform your enterprise data strategy with an AI chatbot for enterprise: Enabled via cloud or in-house deployment, Chatwards is the most cost-effective & intelligent way to optimise your OPEX without compromising your branding.

Your everyday challenges:

- Managing complex data sources
- Handling customer inquiries in real-time across platforms, ensuring high customer satisfaction
- Streamlining internal operations, and enhancing employees productivity across departments

All-in-one solution:

- Effortlessly aggregate data from diverse sources (documents, databases, web etc)
- Provide efficient real-time assistance, reduce response time through multiple interfaces
- Reduce costs, and improve employee engagements across departments

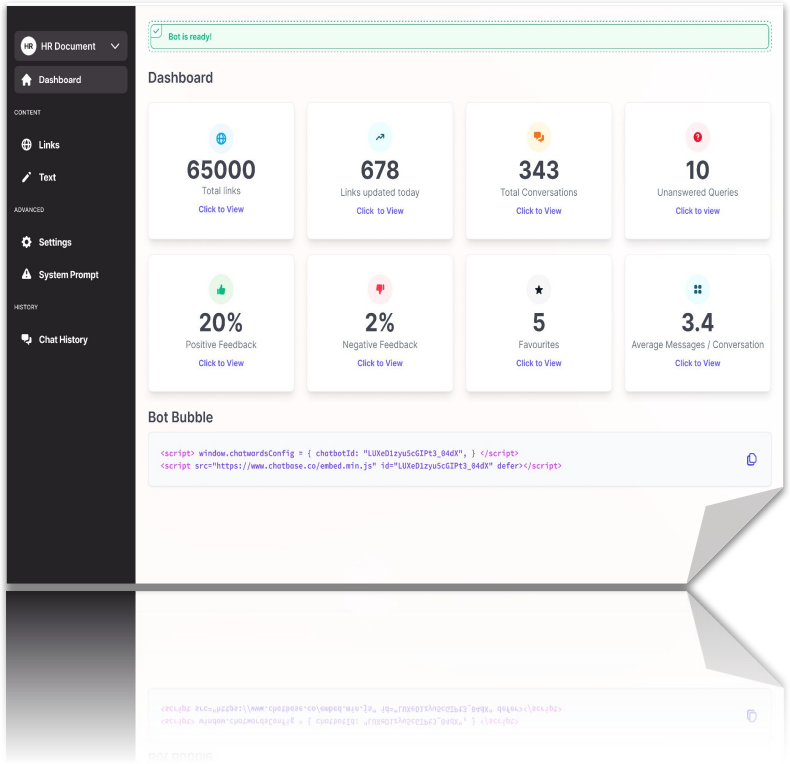
Content GPT For Enterprise

Optimize your digital presence: Leverage AI-powered innovation to supercharge your content strategy and creation.

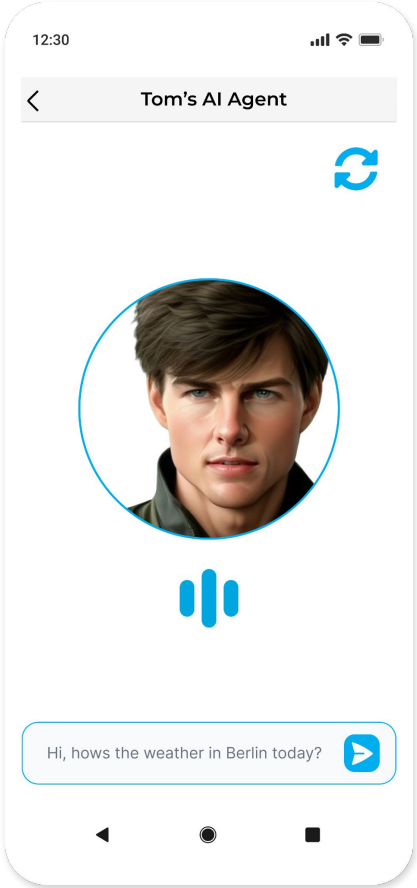
- Analyze extensive data via dashboards, drive automated lead generation, and receive tailored content recommendations
- Meet deadlines, and amplify audience engagement
- Manage data seamlessly without the need for a full-time writer & experience 24/7 availability, resource optimization, and substantial cost reduction



The Future Is Now With AI Agents

Enter the era of digital duality with AI agents: Shape personas, handle voice/text inputs, and seamlessly transform AI responses into your digital twin's voice. Experience a new dimension of communication and creativity.

1. *Scalability:* Businesses can easily scale their operations with AI agents, handling a growing volume of tasks and interactions without proportionally increasing labor costs.
2. *User Satisfaction:* Achieve a 90% satisfaction rate with the conversational tone and immersive experience, increasing customer engagement and loyalty.



The Trust We Earned

"Our codebase is >10M lines of code, so it is a big effort to convert everything over. For Angular, there are many structural changes when converting from AngularJS so it's more than just hitting an "upgrade '' button and validating. For python, there are many places in code that need upgrades in libraries first, change the syntax to support both, then update again, in a stepwise fashion. The team is very responsive and willing to work with flexibility to achieve something that fits with our particular organisation. When we had some challenges on our side with QA and verification we huddled together and figured out a better way to work as a whole." **Alex Harris** | Director Of Development

BROADCOM

ThoriumData

"Techwards has been a blessing to our organisation and we are very grateful to have found such a great development partner. Their team has been nothing less than exceptional in helping us define, create and deliver our product. The organisation as a whole is competent, conscientious and caring. It has been a pleasure to work with them and I am looking forward to many more successful milestones." **Felix SchildorfeR** | CTO

"Techwards has been a fantastic partner for Lucid Lane as we grow the team in Pakistan. Techwards engineers have been professional, courteous and willing to put in extra hours to meet the high demand of a startup. Techwards managers have been very effective in setting up the right processes and attracting and selecting the right talent to work on our projects. They are trustworthy and good people whom I have learned from time and time again." **Ramin Naimi** | CTO

LUCID LANE

ioCommit

"In my long career I've never experienced such a sweet combination of speed, execution and creativity as with our Techwards developers." **Miguel Marcos Martinez** | CEO & Co-Founder
